

## ProbusGlobal could be the most significant initiative since the inception of Probus half a century ago

As a small group of members from Canada, the UK and Australia joined together via the International Probus Network (the IPN). They realised that 270,000 Probus members from across the world could also enjoy the whole global community. Out of this was born . . .

### ProbusGlobal

We are committed to nourishing the Probus movement at a time when senior citizens are living longer and the potential of Probus and Probus Clubs is more important than ever. **ProbusGlobal** provides the opportunity to bring us together and in this way to strengthen the Probus movement all over the world

We are a growing community of Probian from Canada, The United Kingdom, Australia, Ireland, France, Germany, Netherlands, New Zealand, South Africa, India and Japan.
